

JAINISH GUPTA

Game Developer

- Mobile: [+91 80000 71238](tel:+918000071238)
- Email: jainishgupta2000@gmail.com
- Location: Mumbai, India

SUMMARY

A highly motivated Game Developer, proficient in Unity 3D, C#, Node.js, and MongoDB. Possessing a proven track record in the design, development, and optimization of game mechanics, levels, and user experiences. Demonstrates a collaborative and results-oriented approach.

SKILLS & TECHNOLOGIES

- **Languages:** C#, JavaScript (Node.js)
- **Game Development:** Unity 3D (2D/3D), Simulation Weaver, Level Genesis, Editor Scripting
- **Backend & Data:** MongoDB, RESTful APIs, Scalable System Architecture
- **Process & Tools:** Git, SVN, AWS, Team Collaboration

GAME DEVELOPMENT EXPERIENCE & PROJECTS

- **Game Developer | Coincade Studio | August 2023 - August 2024**
 - Developed "Racecade," a 2D blockchain game incorporating an in-game inventory system.
 - Constructed the backend utilizing Node.js and MongoDB.
 - Implemented dynamic car selection, optimized spawning mechanisms, and procedural level generation.
 - Employed editor scripting and refined core game mechanics.
- **Junior Game Developer | Tecknotrove Pvt. Ltd | November 2022 - July 2023**
 - Contributed to the development of high-fidelity industrial training simulations (e.g., drill simulators for Tata Steel, JSW Steel) leveraging Unity 3D, C#
 - Enhanced user interactions through the integration of input devices (Logitech G29/G27)
 - Collaborated on comprehensive simulation solutions, leading to demonstrable improvements in training efficacy and reductions in operational costs.
- **Game Developer Trainee | AAC Studio | July 2022 - November 2022**
 - Acquired and refined proficiencies in hypercasual game development and 3D mechanics.
 - Contributed to three hypercasual mobile games ("Runner Pusher 3D," "Perfect Hit 3D," "Money Run Water 3D"), each achieving over 100,000 installations.
 - Developed unique features and fluid interactive elements.

OTHER PROFESSIONAL EXPERIENCE

- **Co-Founder | Trustopay Innovations Pvt. Ltd. | February 2024 - OCT 2025**
 - Directed the technological vision for a fintech platform.
 - Spearheaded the development of the core financial operations backend.
 - Managed the MongoDB lifecycle, optimizing performance and data integrity.
 - Fostered cross-functional collaboration within the team.
- **Co-Founder | Find and Analyze Pvt. Ltd. | October 2020 - August 2022**
 - Directed technology initiatives for an educational startup, overseeing the development of a Node.js backend and a Flutter mobile application.
 - Played a pivotal role in the launch and scaling of "Class and Class" to over 500 classes.
 - Managed and mentored a team of four developers.

EDUCATION

- **Bachelor of Engineering** | Government College, Dahod | July 2018 - August 2022 (Distinction)
- **Higher Secondary Certificate** | L.P.S High School, Surat, Gujarat | July 2016 - July 2018 (Distinction)
